SUMMARY

Full-Stack & DevOps Software Developer with 2 years of experience designing, developing, and deploying scalable web applications using **React, Next.js, Node.js, and AWS**. Proven track record in building secure REST APIs, automated CI/CD pipelines, and integrating modern AI/RAG capabilities into production environments.

EXPERIENCE

Full Stack Software Developer (Remote) | February 2025 – Present *Terapage*

- Engineer and ship scalable web applications with responsive, user-focused interfaces and maintainable code.
- Design secure backend services, **REST APIs**, and database layers to support robust product integrations.
- Improve **SEO**, load times, and overall application performance metrics.
- Configure environment variables, automated **CI/CD workflows, and build pipelines** for staging and production deployments.
- Drive feature delivery using **Git, GitHub, and pull-request** code review workflows.

Web Developer (Freelance, Remote) | August 2024 – February 2026 *Upwork*

- Delivered production-ready web solutions for international clients, successfully earning and maintaining **Top Rated** status.
- Translated complex business requirements into clean, high-performance code, resulting in multiple repeat client engagements.
- Maintained clear communication and consistent on-time project releases.

Ecommerce Executive (Shopify Developer) | April 2024 – December 2024 *Caliber Pakistan*

- Managed and customized **Shopify** storefronts, configuring themes, product catalogs, collections, and site navigation.
- Integrated third-party Shopify apps and secure payment gateways to optimize checkout flows and store functionality.
- Applied responsive design principles to ensure seamless user experiences across desktop and mobile devices.

PROJECTS

DevMind | View on GitHub

- Developed an AI-powered RAG application enabling users to upload PDFs and query context-aware answers with inline source citations and side-by-side passage matching.
- **Tech Stack:** React, Node.js, LLM, NLP, RAG.

DOTMS | View on GitHub

- Architected a multi-location point-of-sale (POS) system for grocery stores across Karachi and Lahore with synchronized sales logs and unified head-office reporting.
- **Tech Stack:** React, Node.js, PostgreSQL, Express.

StyleCove | View on GitHub

- Built a full-stack e-commerce platform for apparel with a comprehensive admin dashboard for real-time product listing and inventory management.
- **Tech Stack:** React, Node.js, Express, MongoDB.

AI Chat Application | View on GitHub

- Developed a real-time chat application featuring OpenAI integration for automated responses, persistent chat history, and secure user management via Clerk.
- **Tech Stack:** React, Node.js, MongoDB, OpenAI, Clerk.

SKILLS

- **Frontend:** React.js, Next.js, TypeScript, Tailwind CSS, HTML5, CSS3, Shopify
- **Backend:** Node.js, Express.js, REST APIs
- **Databases:** MongoDB, PostgreSQL
- **DevOps & Tools:** AWS (EC2, Amplify), Docker, CI/CD (GitHub Actions), Git

EDUCATION

Bachelor of Science in Computer Science (BSCS) *2023 – 2026*

University of Karachi (UBIT) *Karachi, Pakistan*
